## Wisconsin Certified Peer Specialists

*A Professional Career  
as an integral part of  
Mental Health  
Recovery Teams*

**Peer Specialists**  
*Igniting Recovery*

*Improving  
Recovery Outcomes*

## Peer Specialists Improve Outcomes

A **Peer Specialist** is a job title within the agency of employment where the role of a peer specialist is specific to the lived experience of that specialist and how that experience is utilized to help others move forward on their recovery journey.

A **Peer Specialist** is not a mental health technician limited to providing ancillary services without a clear therapeutic role, (i.e. driving people, laundry, and med deliveries), but an active participant on the consumer's treatment and recovery team.

A **Peer Specialist** is a person who has not only lived the experience of mental illness but also has had formal training in the peer specialist model of mental health supports. They use their unique set of recovery experiences in combination with solid skills training to support peers who have mental illness. Peer Specialists actively incorporate peer support into their work while working within an agency team support structure as a defined part of the recovery team.

## What Peer Specialists Do

The Role of the **Certified Peer Specialist** is varied and can take on several forms of support and assistance. Although roles may vary in service agencies, it is generally recognized that Peer Specialists provide the following services:

- ♦ Use personal recovery experience as a tool
- ♦ Present recovery information
- ♦ Provide information about mental health resources
- ♦ Assist in identifying and supporting consumers in crisis
- ♦ Facilitate self-direction and goal setting
- ♦ Communicate effectively with other treatment providers

If you feel that you would be an effective professional Certified Peer Specialist, please contact us and we will provide you with information on the steps to becoming certified in the state of Wisconsin. Week-long required trainings are held at locations throughout the state and exam locations will be at the Wisconsin Independent Living Centers. There are eight centers partnering for this service.
